

Product/process change notification

PCN224304

Please find attached our Infineon Technologies AG PCN:

Introduction of an additional wafer production site at Cypress Semiconductor Corporation (Fab 25), Austin, USA for select 64-Kbit to 1-Mbit industrial-grade serial nvSRAM products

Important information for your attention:

- Please respond to this PCN by indicating your decision on the approval form, sign it and return to your sales partner before 08 Dec 2022
- Infineon aligns with the widely-recognized JEDEC STANDARD "JESD46", which stipulates: "Lack of acknowledgement of the PCN within 30 days constitutes acceptance of the change."

Your prompt reply will help Infineon Technologies to assure a smooth and well executed transition. If Infineon does not hear from your side by the due date, we will assume your full acceptance to this proposed change and its implementation.

Your attention and response to this matter is greatly appreciated.

On 16 April 2020, Infineon acquired Cypress.

We are now in the process of merging and consolidating our tools and processes for PCN, Information Notes, Errata and Product Discontinuance.

▶ Detailed change information:

Introduction of an additional wafer production site at Cypress Subject:

Semiconductor Corporation (Fab 25), Austin, USA for select 64-Kbit to

1-Mbit industrial-grade serial nvSRAM products.

Reason: This qualification is a part of the flexible manufacturing initiative that allows Infineon to meet its delivery commitments to customers in dynamic

and changing market conditions.

Description: Old

New

- SkyWater Technology, Minnesota, United States
- SkyWater Technology, Minnesota, United States
- Cypress Semiconductor Corporation (Fab 25), Austin, **USA**
- Al BEOL process
- SkyWater: Al BEOL process and
- Fab 25: Cu BEOL process

Product identification:

Infineon maintains traceability of product to wafer level, including wafer fabrication location through the lot number marked on the package.

Impact of change:

Products manufactured at Fab 25 are completely compatible with existing product from a form, fit, functional, parametric, and quality performance perspectives. Infineon also recommends that customers take this opportunity to review these changes against current application notes, system design considerations and customer environment conditions to assess impact (if any) to their application.
