## Product Change Notification

**1. ECR #:** 186322  
**Notification #:** 495

**2. Date of Announcement:** December 26, 2019

**3. Series:**

- ISDF - .050[1.27] DISCRETE WIRE INSULATOR AND LATCH ASM

**4. Part #'s Affected**

- ISDF-XX-D-M
- A-ISDF-XX-D-M

**5. Description of Change:**

A typographical error was made in 2007 and is now being corrected. The material of the latch was changed from Phos Bronze to Beryllium Copper in the latch component print but not the ISDF assembly print.

**6. Method of Identifying Change**

The physical product is not being changed.

**7. Reason for Change:**

The latch material callout is changing from Phos Bronze to Beryllium Copper.

**8. Impact of Change on Form, Fit, or Function:**

- Function - Changing material family callout from Phos Bronze to Beryllium Copper for the latch.

**9. Projected Implementation Date:** March 25, 2020

## **Disclaimer**

Please review the change notification details listed above for specific information regarding the nature and timing of the change. While Samtec has taken precautions to ensure this change is not detrimental to your application, each application can be unique and therefore customers should consider the effect of the change on their specific application.

Samtec has taken efforts to ensure that all users of this product who have requested change notifications have been informed. However, you should assume that this is the only notification that will be sent and you, as the recipient, must determine how to communicate this information to your organization(s) and customer(s) as appropriate. If you wish to opt out of receiving Samtec Engineering Change Notification emails, please contact [CustomerECN@samtec.com](mailto:CustomerECN@samtec.com). Due to technical progress, specifications are subject to change without notification and it is recommended to provide an alternative contact when opting out.

Please contact Samtec at [CustomerECN@samtec.com](mailto:CustomerECN@samtec.com) for any questions related to this change.
