Subject: Product Obsolescence Notification for Select Automotive PSoC® 4100 and PSoC® 4200 Device Family(s)

Product Obsolescence Information:

Cypress announces the obsolescence of select products from its automotive PSoC® 4100 and PSoC® 4200 device family's portfolio. A bi-annual review of the Cypress product portfolio results in the business decision to discontinue certain product offerings. The attached listing contains products that will be replaced by a functional, drop-in replacement. A drop-in replacement is defined as a product that is pin-to-pin and function/feature compatible with the product that will be obsoleted.

Last Time Buy (LTB) and Last Time Ship (LTS) dates are also provided for each product. The LTB date denotes the last day on which orders will be accepted; these orders may be scheduled for shipment through the LTS date provided.

Part Numbers Affected: 14

Please refer to the attached 'Affected Parts List' file which contains the list of existing marketing part numbers currently produced and sorted at Skywater Fab, and their corresponding Drop-In replacement part number that will be produced at Fab 25 and will be sorted at Test 25.
