**RE: Customer Change Notice:**  
Bridgelux BXRA3, Vero and V Series LED arrays

**Ref: CCN-04142014-Date Code Change**

---

This is a Customer Change Notice (CCN) for the above Bridgelux LED array products.

The date code for Bridgelux LED array (Chip on Board) products indicates the year and work week in which the product was built. To be consistent with current industry practice and standards, Bridgelux has changed the date code format.

Previously, Bridgelux used a date code format of WWYY (work week and year). The new format is YYWW (year and work week).

The introduction of the new date code format has no impact to form, fit, function or operating performance of the LED Arrays. However, it is material information for managing inventory and identifying specific products.

This change has been made to the following product families:

<b>Product line</b>	<b>Product Family Name</b>	<b>Implementation Date</b>
Vero LED arrays	BXRC	27 September 2013
BXRA LED arrays	BXRA	18 November 2013
V Series LED arrays	BXRE	13 November 2013

The date code format changes are shown in the following table:

Year	Work Week	Vero (BXRC)			V Series BXRE			BXRA3 (BXRA)
