

POWEREX[®] Product Change Notification

VLA541-01R Gate Driver Last Time Buy Notification To Be Replaced By VLA541-11R # : 2018-015 Rev.: 0

Date: 2018 / NOV / 01

Author: Ron Yurko

Parts Subject to Change:

VLA541-01R

Description of Change:

The ceramic capacitors used in the gate driver VLA541-01R will change from a 1608 sized capacitor to a 1005 sized capacitor. There will be no changes to the electrical characteristics or reliability level. There are no differences in the substrate material and the circuit configuration and parts placement only had minimal changes to use the new capacitor. There are no changes in the physical dimensions. The part number for the product built with the 1005 sized capacitor will change to VLA541-11R.

A last time buy will be offered for the VLA541-01R that was built with the 1608 sized capacitor.

Reason for Change:

The worldwide shortage of ceramic capacitors impacted the production of the original VLA541-01R. To maintain production, the ceramic capacitor was changed to a part that was more likely to be available from suppliers.

Identification of Change:

The part number marked on the device for the replacement part will change from VLA541-01R to VLA541-11R.

Time Schedule for Change:

Please contact Powerex to negotiate your requirements and notify us of your intent to execute a last time purchase of the VLA541-01R if this change is not acceptable.

LTB Terms:

- Date for last order acceptance -- **November 26, 2018**
- Date for last order shipments -- **December 31, 2019**
- All LTB orders will be considered Non-Cancellable and Non-Returnable

Samples and production of the new product VLA541-11R will start in December 2018.

Supporting Documentation:

The data sheet for the VLA541-11R can be downloaded from the Powerex website. Please check for updates.

Quality Management system:

Parts are validated and manufactured to an ISO 9001 quality system.
