HIROSE ELECTRIC CO., LTD.

5-23, OSAKI 5-CHOME, SHINAGAWA-KU, TOKYO, JAPAN

**Notice of Change in Product with Precoat Processed Bolts
and Request for Your Acknowledgement**

Hirose would like to take this opportunity to thank you sincerely for your support, and we hope this letter finds you well and prosperous.

We are writing today to inform you that we will change a material of the product using precoat processed bolts (ThreeBond Co., Ltd.) for the reason described below.

We request that you kindly offer your consent to this matter.

1. Products Affected

See the attached list.

2. Details of the Change

A precoat process material of exterior bolts will be changed to a substitute material as described below.

	Current product	New product
Material manufacturer	ThreeBond Co., Ltd.	ThreeBond Co., Ltd.
Material product name	TB2440B	TB2448B
Color	Orange	Orange

3. Reason for the Change

It is due to the discontinuation of the production of precoat process material of exterior bolts (TB2440B/ThreeBond Co., Ltd.). TB2440B used in the current product discharges volatile organic compound (VOC) in the process of drying organic solvent. The new material TB2448B is aqueous and environmental friendly.

4. Differences Resulting from the Change

There will be no difference in external appearance or performance. The product name will not change.

5. Timing of the Change

We will switch to the new product from the production in January 2015.

6. Confirmation of Your Acknowledgement

We kindly request that you let a Hirose account representative know you acknowledge this matter by November 30, 2014.

In the absence of a response by this date, please be advised that you will be delivered the substitute products above. If you should have any questions, please feel free to contact a Hirose account representative.
