

To Valued Customers in America:

Due to the outbreak of COVID-19, flight capacities are limited from China to America and cost has increased significantly. In order to smoothly supply Littelfuse PolySwitch products to American customers, our China plants (Kunshan Pant and Shanghai Plant) will add sea transportation as alternative method for the goods shipping from China to America immediately. Accordingly, the transit time from China to America will be increased from normal 2 weeks by air transportation to 5 weeks by sea transportation.

For the limited Air transportation, we will keep the original package with no change. But for sea transportation, we will enhance the package with below two actions.

1. Add MBB (Moisture Barrier Bag) & 2pcs desiccant in MBB for sea transportation.
2. Stick "Sea Transportation" on the outer box.

You may receive goods with two package types for Air transportation and Sea transportation in this year. If you would like to have more information, please contact your local sales representatives.
